PART XI: COST BASIS ELECTION

The Fund is responsible for tracking and reporting to the IRS your realized gains and losses on covered shares. In general, these are shares acquired on or after Jan. 1, 2012. Purchases or transfers made into your account with shares acquired prior to January 1, 2012, are referred to as noncovered shares. For all methods except Specific Identification, the fund redeems noncovered shares first until they are depleted and then applies your elected method to your remaining covered shares.

The Fund's **default** tax lot identification method is **FIFO (first-in, first-out)**, which means the first Fund shares you acquire are the first Fund shares sold. You may choose another method below. **Note: IRS Regulations do not permit the change of the method on a settled trade.** If you are using average cost as your method, by signing this application you agree to use the fair market value of the shares if the gift is at a loss.

- I choose the funds default method of FIFO
 I choose a method **other** than FIFO (select a method below):
 HIFO –Highest in, First Out Specific Identification
 LIFO – Last in, First Out Average Cost

If no cost basis option is selected, your account will use the Fund's default method. If your account cost basis method is Average Cost, whether by election or default, and you are receiving a gift, you agree to receive that gift at FMV if received at a loss.
